Centurion Technologies is proud to offer the perfect companion to the SmartShield® Suite – CurrentWare.

CurrentWare is the perfect companion to SmartShield®, offering many of the technologies our customers have had to find from other vendors. The technologies match perfectly with SmartShield®'s mission of saving administrators time by bringing your computing environments under control. SmartShield® CurrentWare Suite also allows for CIPA compliance.

The CurrentWare Suite includes BrowseControl, BrowseReporter, AccessPatrol, and EnPowerManager.

#### **BrowseControl** | Internet Restriction

BrowseControl is an easy to use internet management program that restricts inappropriate surfing and enforces internet usage policies across your enterprise.

- Control Internet Access
- URL White and Black Lists
- HTTPS Filtering
- URL Category Filtering

#### **AccessPatrol** | Endpoint Security

AccessPatrol provides a proactive and efficient solution for securing company endpoints (USBs, CD/DVDs, BlueTooth devices, WiFi, iPods, etc) to prevent the illicit transfer of data to unauthorized devices.

- Control Device Access
- Read/Write/Block Access
- Device Access Reports
- Automated Email Reports

#### **BrowseReporter** | Internet Monitoring

BrowseReporter is a powerful web-monitoring tool that allows you to monitor the browsing activity of your employees or students.

- Track Internet activity
- Automated Email Reports
- Bandwidth Monitoring
- Remote Screen Capture

#### **enPowerManager** | Power Management

enPowerManager provides an effective method for energy management across an enterprise. Conserve energy, reduce costs, and help protect the environment – all from the central CurrentWare console.

- Conserve Energy Usage
- Remote Shutdown/Restart/Hibernate/ Standby
- Schedule energy policies
